The total value of prizes in the initial print run of Tickets for the Game represents 67.79% of the total face value of Tickets. The overall value of prizes in the initial print run of Tickets for the Game is £43,143,180.

The number of prizes in the initial print run of Tickets for the Game relates to the number of Tickets recorded on the Company's central computer and formally notified to the National Lottery Commission prior to the sale of any Tickets. The Company may, with the consent of the National Lottery Commission, print further Tickets for this Game. In the event that any further print run of Tickets for this Game is made then, in respect of the Tickets comprising that further print run, the odds of winning a prize at each prize level will be at least as good as the initial print run, and details of the prize structure for that further print run will be available from the National Lottery Line.
