Game details

How to play and win

The Play Area has four sections, one labelled 'SCRATCH HERE FIRST YOUR COORDINATES' (the "Your Coordinates Section") and three prize tables each of which are labelled 'PRIZE TABLE' (each a "Prize Table").

The Your Coordinates Section consists of eighteen  motifs. Under

the coating of each  motif is a coordinate made up of one letter and one number (a "Your Coordinate Play Symbol", together the "Your Coordinate Play Symbols").

Each Prize Table contains letters at the top of each column, and numbers on the left hand side of each row. Each row in a Prize Table contains a number of squares with symbols on the coating. At the end of each row in a Prize Table is the word 'PRIZE' (the "Prize Box").

To play, first scratch off all of the coating in the Your Coordinates Section to reveal eighteen Your Coordinate Play Symbols. Then scratch off only those squares in the row(s) in a Prize Table(s) that correspond to the Your Coordinate Play Symbols revealed under the coating of the Your Coordinates Section.

You will, providing the requirements of the Rules and these Procedures are met, win a Prize if, after scratching only those squares in a row(s) in a Prize Table(s) that correspond to the Your Coordinate Play Symbols revealed under the coating of the Your Coordinates Section, You reveal all of the Play Symbols in a horizontal row in a Prize Table(s). The Prize will be equal to the amount of the Prize Symbol shown with its matching Prize Caption under the coating of the Prize Box for that row.

A Player can win up to 5 times on a ticket.

Once the last top Prize has been validated, Retailers will be allowed to continue selling those Scratchcards that have already been activated for sale and any unactivated Scratchcard stock will be withdrawn. To find out up-to-date Prize information visit national-lottery.co.uk or call the National Lottery Line on **0333 234 5050**. Calls cost no more than calls to 01 and 02 numbers. If your phone tariff offers inclusive calls to landlines, calls to 03 numbers will be included on the same basis.

Prize Value in The Game

The total value of Prizes in the initial print run of Scratchcards for the Game represents 66.93% of the total face value of Scratchcards. The overall value of Prizes in the initial print run of Scratchcards for the Game is £19,104,380.00.

The number of Prizes in the initial print run of Scratchcards for the Game relates to the number of Scratchcards recorded on Camelot's Computer System and formally notified to the Gambling Commission before any Scratchcards are sold. The details in these Procedures will not be revised to take into account any future sale or loss of Scratchcards, future withdrawal of Scratchcards (where those Scratchcards are withdrawn by Camelot without knowledge of whether they are Prize bearing Scratchcards), or additional print run(s) of Scratchcards for the Game. Providing a top prize remains available, Camelot may print further Scratchcards for this Game. If a further print run of Scratchcards for this Game is made, then, for the Scratchcards produced in that further print run, the overall odds of winning a Prize at each Prize tier level will be, allowing for the tolerance levels as specified in the table above, the same as in the initial print run of Scratchcards for the Game.

General

In the event of any conflict between these Procedures and any other information issued by Camelot in relation to this Game, these Procedures will take priority.
