

Prize Value in The Game

The total value of prizes in the initial print run of Tickets for the Game represents 61.27% of the total face value of Tickets. The overall value of prizes in the initial print run of tickets for the Game is £9,838,800.

The number of prizes in the initial print run of Tickets for the Game relates to the number of Tickets recorded on the Company's central computer and formally notified to the Gambling Commission before any Tickets are sold. The details in these Procedures will not be revised to take into account any future sale or loss of Tickets, future withdrawal of Tickets (where those Tickets are withdrawn by the Company without knowledge of whether they are prize bearing Tickets), or additional print run(s) of Tickets for the Game. The Company may print further Tickets for this Game. If a further print run of Tickets for this Game is made, then, for the Tickets produced in that further print run, the overall odds of winning a prize at each prize tier level will be, allowing for the tolerance levels as specified in the table above, the same as in the initial print run of Tickets for the Game.

In the event of any conflict between these Procedures and any other information issued by the Company in relation to this Game, these Procedures will take priority.
